

COOKIE POLICY

Bollé Safety respects its customers and takes the security and privacy of your personal data very seriously. This text defines what type of information we collect when you use our services, in particular on our website www.bollesafety-usa.com (the "Site"), and how we use it.

1. Cookies and web beacons

When you first connect to the Bollé Safety website, you are warned by a banner at the top of your screen that information relating to your navigation may be stored in files called "cookies". Our cookie usage policy allows you to better understand the provisions we implement in terms of navigation on our website. In particular, it informs you about all cookies on our website, their purpose and gives you the procedure to follow to set them.

Bollé Safety uses cookies and web beacons for various purposes described below. Cookies are small text files that are sent by the Site and stored on your computer's hard drive. A web beacon is an electronic image (i.e. not visible), generally called a "single pixel" or GIF, placed on the Site that requests information from your hardware such as your browser type (grouped below as "Cookies").

The information collected through cookies does not in any way identify you by name. They are used exclusively for our own needs in order to improve the interactivity and performance of our website and to send you content adapted to your interests. None of this information is communicated to third parties except when Bollé Safety has obtained your prior consent or when disclosure of this information is required by law, by order of a court or any administrative or judicial authority authorized to know it.

2. How do we use cookies?

We may use different types of cookies. They can be classified as follows:

There are two types of cookies: session cookies and persistent cookies. Session cookies are created temporarily in the subfolder of your browser at the time you visit a website. Once you leave the site, the session cookie is deleted. On the other hand, persistent cookie files remain in your browser's subfolder and are reactivated once you visit the website that created that specific cookie. A persistent cookie remains in the browser's subfolder for the duration defined in the cookie file.

The technical cookies necessary for the operation of the Site. These cookies are necessary to allow you to browse our Site and benefit from our services.

Site improvement cookies. They record your preferences and thus facilitate your navigation when you return to our Site; they record information about your choices (for example, language) and allow us to offer you more personalized functions.

Personalization cookies and targeted advertising. These cookies may be set by Bollé Safety or by third parties. Google, for example, analyzes the navigation data of our Site users (pages visited, links used, etc.) to help us better understand their needs and improve our Site and services. For more information on targeted advertising and the right to object to such use, please contact us at contact@bolle-safety.com. Google Analytics, a web analytics service offered by Google Inc ("Google").

Generally, information about your use of this website generated by the use of cookies is transmitted to and stored by Google on servers in the United States. Google will use this information for the purpose of evaluating your use of the website, compiling reports on website activity and providing the website operator with other services relating to website activity and internet usage on request. The IP address provided by your browser as part of Google Analytics will not be linked to any other Google data. You can prevent the data relating to your use of the website generated by the cookie (including your IP address) from being transmitted to Google and processed by Google by downloading and installing the browser plug-in available at the following link (<http://tools.google.com/dlpage/gaoptout?hl=en>).

3. Your choices about cookies

You can change the options available to manage cookies on your browser. You can thus receive a notification when you receive cookies, and thus accept or refuse them. You can also disable cookies completely. However, disabling cookies may prevent you from using certain options on our site.

WARNING: We draw your attention to the fact that the refusal of the deposit of cookies on your device is nevertheless likely to alter your user experience as well as your access to certain services or features of this website. If necessary, Bollé Safety declines any responsibility concerning the consequences related to the degradation of your browsing conditions that occur because of your choice to refuse, delete or block cookies necessary for the operation of the site. These consequences cannot constitute a damage and you will not be able to claim any compensation for this fact.

Your browser also allows you to delete existing cookies on your device or to notify you when new cookies might be placed on your device. These settings have no impact on your browsing but make you lose all the benefit provided by the cookie.

For more information about cookie control tools, you can consult the CNIL website: <https://www.cnil.fr/fr/cookies-les-outils-pour-les-maitriser>.

4. Third Party Advertising Partners

We may use the services of third party partners to serve advertisements (banners or links) for us on the Internet. These partners may collect information about your visits to our site, as well as your interactions with our products and/or services, and your visits to other sites. This information does not include your name, address, e-mail address or any other personal browser information. Information is collected through cookies or other similar technologies.

5. Shelf life

Bollé Safety keeps your data only as long as necessary for the performance of our services or within the limits prescribed by law. After this period, your personal data will be deleted. We cannot delete your data if there is a legal retention obligation, for example if it is prescribed by accounting law or if there is a legal reason to retain the data, such as an ongoing contractual relationship for example.

6. Security

Bollé Safety has implemented various technical and organisational measures to ensure the security of the personal data collected. For example, we store all personal data on secure servers with limited access. We also use encryption technology when transferring data as well as routers and firewalls to ensure the confidentiality of this information.

Please note, however, that no security system is foolproof. Secure servers are generally not accessible by unauthorized third parties, but may become so in the event of a security breach. Bollé Safety has no means of controlling the security of computers or other electronic devices not in its possession, or of any other means of information transfer communication that you will use to deal with Bollé Safety via the Internet. Bollé Safety therefore cannot ensure the security of your data or protect it from disclosure or interception until it has been received.

7. Right of access to your personal data

You have the right to have these data corrected, completed, updated, blocked or deleted, unless we have to keep them for legal reasons. For any question or request, please contact us at contact@bolle-safety.com or by phone 800-222-6553
